FREE WORKBOOK FROM BILLIONAIRE PANDA

The 30-Day MONEY RESET

Find your money leaks. Build a simple budget.
Pay yourself first. Start growing your money.

For education only · not personal financial advice

How to use this workbook

Money gets easier when you can see it. This workbook turns the lessons from our videos into simple pages you fill in.

What's inside

1. My Money Snapshot	where you are today
2. Money Leak Checker	the 10 silent leaks
3. Subscription Audit	find forgotten payments
4. 50/30/20 Budget Planner	the simplest budget
5. Pay-Yourself-First Plan	save before you spend
6. Emergency Fund Tracker	your safety cushion
7. Debt Payoff Tracker	snowball or avalanche
8. First Investment Checklist	start small, start right
9. The 30-Day Challenge	one small step a day

3 simple rules

✔ Print it, or fill it in on your phone or tablet.
✔ Do one small step a day. Progress beats perfection.
✔ Come back every month and update your numbers.

Every example in this workbook is for education only. Your situation is unique, so adapt the numbers to your own life.

1. My Money Snapshot

Be honest: nobody else sees this page. Today's date: _____

Item	Amount
Monthly take-home pay	
Rent / housing	
Bills & utilities	
Groceries & transport	
Everything else I spend	
Money left at month end	
Total savings today	
Total debts today	
My net worth (savings − debts)	

How do I feel about money right now?

You can't fix what you can't see. Filling in this page is already the first step.

2. Money Leak Checker

Tick every leak you have, then guess what it costs you each month.

Leak	Cost per month
☐ Forgotten subscriptions	
☐ Late fees & bank charges	
☐ Brand-new car (vs. 2–3 years old)	
☐ Food delivery	
☐ Buying because it's on sale	
☐ Upgrading your phone every year	
☐ Extended warranties	
☐ Lottery tickets	
☐ A gym you don't use	
☐ Late-night impulse buys	
TOTAL LEAKS	

× 12 months = $ _____ a year

Don't fix all ten at once. Pick the **3 biggest leaks** and fix them this month. Then send that money straight to savings.

3. Subscription Audit

Open your bank statement and list every repeating payment: streaming, apps, cloud storage, memberships, free trials.

Subscription	Cost / month	Used this month?	Decision
			☐ Keep ☐ Cancel
			☐ Keep ☐ Cancel
			☐ Keep ☐ Cancel
			☐ Keep ☐ Cancel
			☐ Keep ☐ Cancel
			☐ Keep ☐ Cancel
			☐ Keep ☐ Cancel
			☐ Keep ☐ Cancel
			☐ Keep ☐ Cancel
			☐ Keep ☐ Cancel
			☐ Keep ☐ Cancel
			☐ Keep ☐ Cancel

> Rule of thumb: if you didn't use it this month, cancel it. You can always sign up again later.

4. 50/30/20 Budget Planner

Three buckets, one simple rule. Start with your monthly take-home pay.

My take-home pay: $ _____

Bucket	Target	My target	Actual
NEEDS rent, bills, groceries, transport	50%	$	$
WANTS eating out, shopping, fun	30%	$	$
FUTURE savings, investing, extra debt payments	20%	$	$

Example: $3,000 a month

Needs $1,500 · Wants $900 · Future $600

Rent too high?

Try 60 / 20 / 20: cut wants first, and protect your future bucket.

> Your budget needs fun money. A budget with zero fun is like a crash diet: most people quit within weeks.

5. Pay-Yourself-First Plan

Most people save what's left after spending. Flip it: save first, then live on the rest.

I will save / invest this % of every pay:	_____ %
That is this amount every month:	$ _____
My payday is on:	_____
Money goes automatically to (account):	_____
Every raise, I'll save at least:	50% of it

What it could grow to

At around 7% a year (not guaranteed):

Per month	10 years	20 years	30 years
$100	~$17,000	~$52,000	~$122,000
$300	~$52,000	~$156,000	~$366,000

> Start with 5% if 10% feels like too much. The habit matters more than the amount.

6. Emergency Fund Tracker

Your umbrella for life's surprises, so one bad day doesn't become a bad year.

Step 1 · starter fund	$500 – $1,000
Step 2 · full fund (3–6 months of expenses)	$ _____
My monthly expenses	$ _____

Colour in a box every time you reach 10%

10%	20%	30%	40%	50%	60%	70%	80%	90%	100%

Date	Added	New total

7. Debt Payoff Tracker

List every debt. Pay the minimum on all of them, and throw every extra dollar at one target.

Debt	Balance	Interest %	Minimum	Order

Choose your method ☐ Snowball ☐ Avalanche

Snowball: smallest balance first, for quick wins and motivation.
Avalanche: highest interest rate first, so you pay the least interest overall.

> The best method is the one you'll actually finish. And once a debt is paid off, don't start using that card again.

8. First Investment Checklist

You don't need a lot of money to start. You need time, and a habit.

- [ ] I have a starter emergency fund
- [ ] I've paid off high-interest debt (20%+)
- [ ] I understand what an index fund / ETF is
- [ ] I've compared fees (look for low or no fees)
- [ ] The platform is licensed by my country's regulator
- [ ] I've chosen an amount I won't miss
- [ ] I've set up an automatic monthly investment
- [ ] I won't panic-sell when the market drops
- [ ] I won't invest money I need in the next few years
- [ ] I'll check it monthly, not daily

Investing involves risk and returns are never guaranteed. Rules and account types differ by country, so always use a properly licensed platform.

9. The 30-Day Challenge (Days 1–15)

One small step a day. Tick each day when it's done.

1	☐	Write down your monthly take-home pay
2	☐	List every regular bill you pay
3	☐	Check last month's bank statement
4	☐	Find every subscription you pay for
5	☐	Cancel one subscription you don't use
6	☐	Set up autopay for one bill
7	☐	Turn on low-balance alerts
8	☐	Delete saved cards from shopping apps
9	☐	Try the 48-hour rule on one purchase
10	☐	Cook at home instead of ordering in
11	☐	Fill in your 50/30/20 budget
12	☐	Pick your Pay-Yourself-First %
13	☐	Open a separate savings account
14	☐	Set up an automatic transfer on payday
15	☐	Set your emergency fund goal

9. The 30-Day Challenge (Days 16–30)

One small step a day. Tick each day when it's done.

16	☐	List all your debts (balance, rate, minimum)
17	☐	Choose: snowball or avalanche
18	☐	Pay a little extra on your target debt
19	☐	Ask your bank or card company to remove a fee
20	☐	Do a no-spend day
21	☐	Sell one thing you no longer use
22	☐	Learn what an index fund is
23	☐	Compare fees on 2 investing platforms
24	☐	Write down one skill that could raise your pay
25	☐	Spend 15 minutes learning about money
26	☐	Review this week's spending
27	☐	Plan your fun money for next month
28	☐	Calculate your net worth
29	☐	Check your progress on every tracker
30	☐	Write your money goal for the next 12 months

You did it!

Small habits, repeated for years, build real wealth.
Come back to this workbook every month.
